

I am asking that you do not change K-Love to a LPFM since it does such a great service to our community. Our children need to hear this positive music that they send out on our airways. It is a listener supported station let the listeners keep it on the FM stations. There is no need for the FCC to move this station that has helped thousands if not millions keep their faith in God and in this country. And right now we need all the faith we can get!
